DETAILED ACTION

1. This office acknowledges receipt of the following item from the Applicant:
Information Disclosure Statement (IDS) filed on 8/27/03 and it was consider.
2. Claims 1-31 are presented for examination.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

Claims 1-31 are considered allowable since the prior art made of record and considered pertinent to the applicant's disclosure does not teach or suggest the claimed limitations. The prior art does not teach the claimed invention having a loadless 4-T SRAM having in combination with other features the specific interconnections of the 4-T SRAM structure and wherein the first and second access transistor have a first threshold voltages that are substantially the same, and wherein the first and second pull-down transistors have second threshold voltages that are substantially the same and wherein the second threshold voltages are greater than the first threshold voltages. Prior art also does not disclose the method of bootstrapping charge on the activated wordline to a common device well line that is commonly connected to device wells of the memory cells in the selected row to reduce a threshold voltage of transistors of the memory cells in the selected row.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Rose et al (5583821) and Heald (4821235) discloses SRAM memory device.
